

PLUMBER

Occupation Description

Plumbers install, repair and maintain plumbing fixtures and systems such as water, hydronic, drain, waste and vent (DWV), low pressure steam, chemical and irrigation. They also install specialized systems such as medical gas, process piping, compressed air, water conditioners, fuel piping, sewage and water treatment, and storage and flow equipment. Plumbers interpret drawings, refer to layouts of existing services, and review applicable codes and specifications to determine work details and procedures. They locate and mark positions for fixtures, pipe connections and sleeves, and cut openings to accommodate pipe and fittings.

Regulations concerning the planning, installation, maintenance and inspection of sewage treatment systems may vary by jurisdiction. Additional certification may be required in some jurisdictions to allow plumbers to plan and perform work on these systems.

For information regarding BC regulations, please refer to [Sewerage System Regulation](#)

For detailed information on the scope of knowledge and skills taught and assessed in this program refer to the Program Outline, available on the ITA website.

Pathways to Certification

In BC, an individual can become certified as a Plumber by completing the Plumber program or by challenging the certification. Apprenticeship programs are for individuals who have an employer to sponsor them and challenge programs are for individuals who have extensive experience working in the occupation and wish to challenge the certification.

Youth can begin an apprenticeship in high school through either the Youth Train in Trades or Youth Work in Trades programs. The Youth Work in Trades program is available for any trade if an employer is willing to sponsor the student. Trades offered through the Youth Train in Trades vary by region; contact your local school district to find out which technical training programs are being offered through the Youth Train in Trades program in your region.

Foundation programs, where available, provide adults and youth who do not have work experience or employer sponsorship with an opportunity to gain the knowledge and skills needed to enter the occupation. Individuals who wish to enroll in a Foundation program must register directly with the training provider.

Recommended Education

The following education is **recommended** for apprentices entering this occupation. These are not prerequisites, but rather a desired level of skill or knowledge that will contribute to success in the industry.

- Grade 12 diploma or equivalent including:
 - English 12,
 - Algebra 11 or Trade Mathematics 11 and
 - Physics 11 or Science and Technology 11

ITA Registration

Individuals who wish to begin an apprenticeship in this program must register with ITA along with their sponsors. Application forms are available from the ITA website. Online registration is also available for most programs through the ITA website.

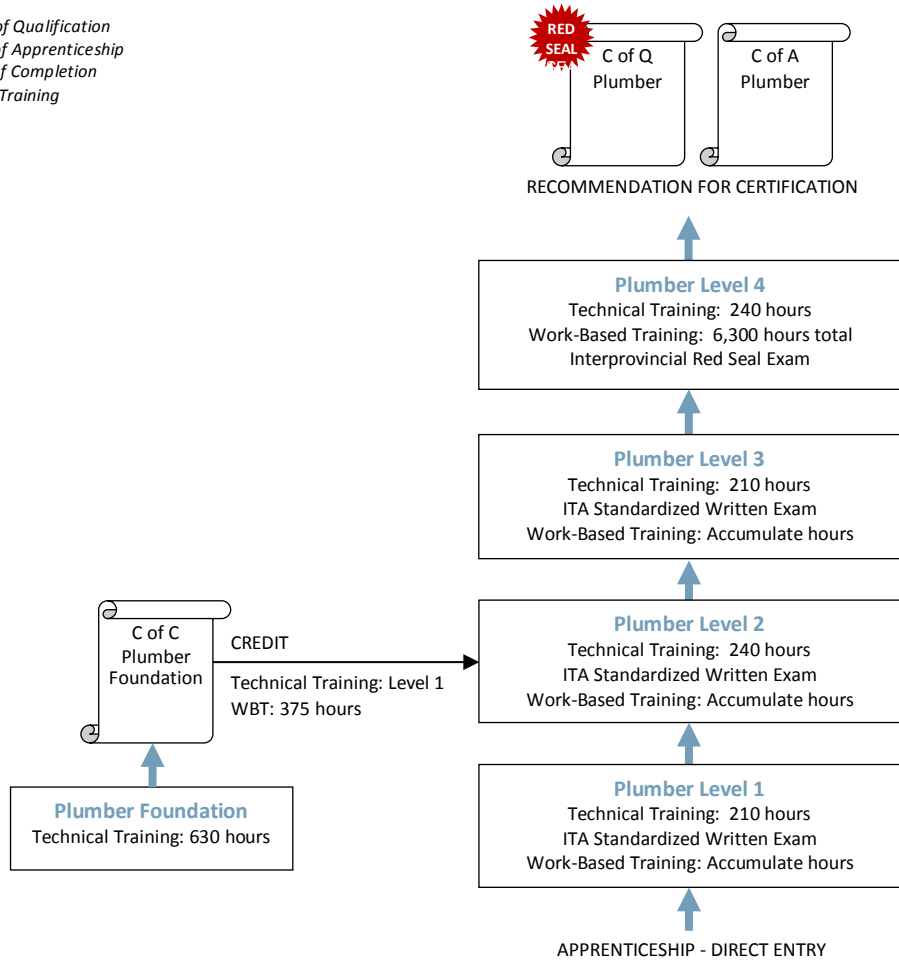

Those who wish to challenge the Plumber certification must complete the Plumber Challenge Package and submit it to ITA. Challenge applications are assessed for proof of workplace hours and scope of experience prior to acceptance of the individual into the challenge pathway.

Apprenticeship Pathway

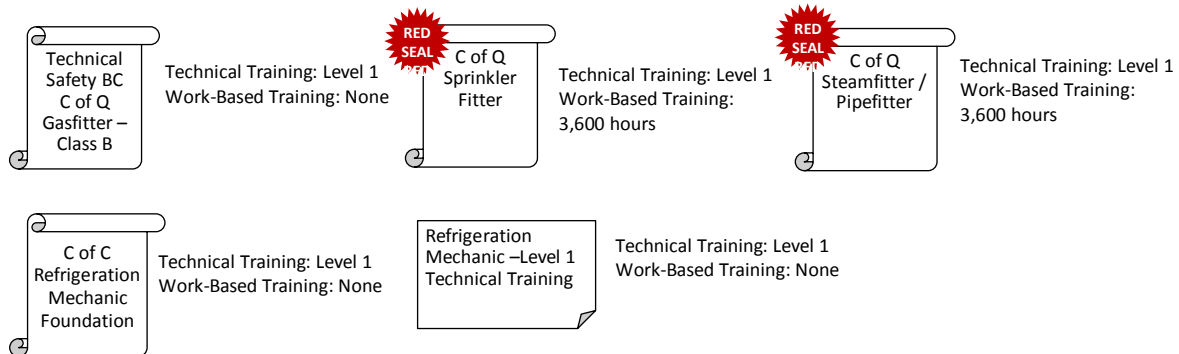

This graphic provides an overview of the Plumber apprenticeship pathway.

C of Q = Certificate of Qualification
 C of A = Certificate of Apprenticeship
 C of C = Certificate of Completion
 WBT = Work-Based Training

CROSS-PROGRAM CREDITS

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Apprenticeship Program Standards

Credentials Awarded

- Plumber – Certificate of Qualification with Interprovincial Red Seal endorsement
- Plumber – Certificate of Apprenticeship

ITA Registration Pre-requisites ▪ Agreement signed by the employer to sponsor the apprentice

Completion Requirements Certification as a Plumber is awarded upon successful completion of:

Requirement	Level of Achievement Required
Technical Training	Minimum 70% in each level of technical training: <ul style="list-style-type: none"> ▪ Level 1: 210 hours and ITA standardized written exam ▪ Level 2: 240 hours and ITA standardized written exam ▪ Level 3: 210 hours and ITA standardized written exam ▪ Level 4: 240 hours
Interprovincial Red Seal Exam	<ul style="list-style-type: none"> ▪ Minimum 70%
Work-Based Training	<ul style="list-style-type: none"> ▪ 6,300 hours
Recommendation for Certification	<ul style="list-style-type: none"> ▪ Recommendation for certification signed by the Sponsor and an individual holding credentials eligible for sign-off authority

Program Duration Duration varies depending on how training is delivered, but the program generally takes 4 years to complete.

The technical training requirement is typically met through block-release training (full-time, at school) delivered by an ITA-approved training provider. It can also be met through approved alternative training models (e.g., distance education, online, part-time) and/or level challenge where these options are available.

Sign-off Authority Credentials eligible to sign-off on the Recommendation for Certification:

- Plumber – Certificate of Qualification
- Plumber – Interprovincial Red Seal endorsement
- ITA-issued letter authorizing supervision and sign-off of apprentices in this occupation

Challenging a Level The following levels of technical training can be challenged for advanced placement in this program:

Level

- Level 1
- Level 2 – *(when implemented in Fall 2020)*

Apprenticeship Program Standards

Cross-Program Credits

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

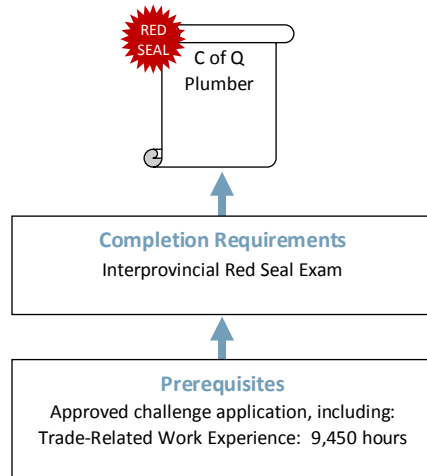

Credential	Credit(s) Granted
Domestic/Commercial Gasfitter B – Certificate of Qualification issued by the Technical Safety BC OR Gasfitter – Class B Certificate of Qualification issued by the Technical Safety BC	<ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-Based Training: None
Sprinkler Fitter – Certificate of Qualification with Interprovincial Red Seal endorsement	<ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-Based Training: 3,600 hours
Steamfitter/Pipefitter – Certificate of Qualification with Interprovincial Red Seal endorsement	<ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-Based Training: 3,600 hours
Refrigeration Mechanic Foundation – Certificate of Completion	<ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-Based Training: None
Refrigeration Mechanic – Level 1 Technical Training	<ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-Based Training: None

Challenge Pathway
