Program: Architectural Sheet Metal Apprenticeship

To: ITA Training Providers
Construction Industry Training Organization (CITO)
ACE-IT School Districts

RE: REF: 2011 005
UPDATE TO ARCHITECTURAL SHEET METAL CERTIFICATE OF QUALIFICATION EXAMINATION

Timing: Immediately

Information: Certificate of Qualification Examination

This note is an update on the status of the Architectural Sheet Metal Program, further to OPSN 2010 008, which was issued on March 30, 2010.

OPSN 2010 008 indicated that the Industry Training Authority (ITA) had completed the pilot delivery of the program and was launching the program into regular delivery.

The three levels of technical training for the Architectural Sheet Metal Program have been in regular delivery since March 30, 2010. In the intervening time, changes have been made to the Architectural Sheet Metal Certificate of Qualification (C of Q) exam.

The current C of Q exam is being replaced with a new C of Q exam that assesses the competencies in the Architectural Sheet Metal program outline posted on the ITA website at www.itabc.ca.

The new Architectural Sheet Metal C of Q exam is to be launched immediately.

Apprentices registered in the Architectural Sheet Metal Program are required to write a Certificate of Qualification exam and pass with a mark of 70% or greater.

The C of Q exam may be requested by training providers via the usual ITA procedure.

ITA will administer and invigilate the C of Q exam, and score and record exam results in ITA Direct Access.
