

THE RIGHT SKILLS ► A PROVEN ADVANTAGE

★ OFFICIAL PROGRAM STANDARDS NOTIFICATION ★

Issued: March 31, 2011

Program: Tiler

To: ITA Training Providers
Construction Industry Training Organization (CITO)
ACE IT School Districts

RE: REF: 2010 012
UPDATE TO TILESETTER PROGRAM

Timing: Effective: January 1, 2012

Information: Please be advised that an updated program standard for the Tiler apprenticeship program has been approved by the ITA. An updated program profile and program outline is posted on the ITA website at www.itabc.ca.

The Construction Industry Training Organization (CITO) has completed the program review after extensive consultation with industry and training providers. The program review has resulted in content changes to all three Levels of technical training. Training providers will need to ensure their curriculum is aligned to the competencies identified in the new program outline.

Delivery of training for the Tiler apprenticeship program is to be based on the updated program outline as of January 1, 2012.

Assessment

In-school Training

Training providers delivering Tiler apprenticeship Levels 1, 2 and 3 in-school training are required to enter the following assessment result for each apprentice in ITA Direct Access:

- An in-school mark in the form of a percentage (minimum 70% is required for a pass)

The in-school mark is a combined theory and practical assessment determined on the basis of:

- Theory and practical subject competencies. A table showing the subject competencies and weightings for each Level is shown in the attached Grading Sheet: Subject Competencies and Weightings Tables document.
- The theory subject competency mark is calculated based on:
 - Levels 1, 2 & 3 - 70% from the accumulated individual competencies and 30% based on the score from a final theory Level exam.
- The practical subject competency mark is calculated based on 100% of the accumulated individual competencies.
- The final in-school mark for entry in ITA Direct Access is calculated by:
 - Levels 1, 2 & 3 - applying a weighting of 20% to the final theory result and a weighting of 80% to the practical result and then adding the two results together.

Successful completion of the in-school training for each Level is defined as a score of 70% or greater for the final in-school mark.

ITA Standardized Level Examinations

ITA standardized Level exams for the Tilesetter apprenticeship program have been developed and are currently being field tested. Once completed, these exams will replace the proprietary theory Level exams being used by training providers delivering in-school training for the Tilesetter apprenticeship program.

The Construction Industry Training Organization (CITO) is responsible for the administration and invigilation of exams being field tested. Field testing is being conducted by CITO at a limited number of training provider sites. Training providers will be notified when the ITA standardized exams are ready for use by training providers.

Questions regarding the field testing process should be directed to: Dave Coleman at Construction Industry Training Organization (CITO) at davec@bccito.ca or (604) 431-1994.

Interprovincial (Red Seal) Examination

Tilesetter apprentices are required to write the Tilesetter Interprovincial (Red Seal) exam after completing their in-school training. A score of 70% or greater is required for a pass.

Interprovincial (Red Seal) exams may be requested by training providers via the usual ITA procedure.

The ITA will administer and invigilate the Interprovincial (Red Seal) exam and score and record exam results in ITA Direct Access.
