

Issued: July 24, 2014

Program: Domestic/Commercial Gasfitter (Class B)
Gasfitter Class A

To: ITA Training Providers

RE: OPSN 2014 013
Program Review and Update

Timing: Effective: Immediately

Information: Please be advised that an updated program profile and program outline for the Domestic/Commercial Gasfitter (Class B) and Gasfitter Class A is posted on the ITA website at www.itabc.ca.

Background The Construction Industry Training Organization (CITO) completed a review of the Domestic/Commercial Gasfitter (Class B) and Gasfitter Class A apprenticeship programs in consultation with industry and training providers.

The CITO program review resulted in minor changes to the program to ensure trade currency and alignment with current industry practices.

Training Providers delivering the Gasfitter programs are encouraged to review the realignment of the Training Topics and Suggested Time Allocation as these have changed for a number of the General Areas of Competency.

Delivery of training for the Domestic/Commercial Gasfitter (Class B) and Gasfitter Class A apprenticeship program has been aligned by training providers and is based on this updated program outline.
