

★ OFFICIAL PROGRAM STANDARDS NOTIFICATION ★

Issued: June 22, 2012

Program: STEAMFITTER / PIPEFITTER

To: ITA Training Providers
Resource Training Organization (RTO)
ACE IT School Districts

RE: REF: 2012 011
STEAMFITTER/PIPEFITTER LEVEL 1 EXAM

Timing: Effective: September 1, 2012

Information: Effective September 1, 2012, apprentices attending Level One Steamfitter / Pipefitter technical training at ITA Designated Private Training Provider institutions are required to write the ITA Steamfitter/Pipefitter Level One exam as a completion requirement for the Steamfitter / Pipefitter Level 1 program. The results will be blended by ITA using an 80/20 ratio of in-school final mark to level exam mark.

The Steamfitter / Pipefitter Level 1 exam may be requested by ITA Designated Private Training Providers via the usual ITA procedure. ITA will administer and invigilate these exams and score and record exam results in ITA Direct Access. Blending of the final in-school mark with the results of the Level One exam will be done in ITA Direct Access and final results reported to the institution and the apprentice.

The Steamfitter / Pipefitter program standards remain unchanged. The technical training content for Steamfitter / Pipefitter apprentices in BC is detailed in the ITA Program Outline for the trade, which is available online at www.itabc.ca.
