

CONSTRUCTION ELECTRICIAN

Occupation Description

“Construction Electrician” means a person who installs, constructs, alters, repairs, maintains, commissions, tests, services, calibrates and operates related electrical and electronic systems in any premise, place, building or structure.

For detailed information on the scope of knowledge and skills taught and assessed in this program refer to the Program Outline, available on the ITA website.

Pathways to Certification

In BC, an individual can become certified as a Construction Electrician by completing the Construction Electrician program or by challenging the certification. Apprenticeship programs are for individuals who have an employer to sponsor them and challenge programs are for individuals who have extensive experience working in the occupation and wish to challenge the certification.

Youth can begin an apprenticeship in high school through the Youth Train in Trades or Youth Work in Trades programs. The Youth Work in Trades program is available for any trade if an employer is willing to sponsor the student. Trades offered through the Youth Train in Trades vary by region; contact your local school district to find out which technical training programs are being offered through the Youth Train in Trades program in your region.

Foundation programs, where available, provide adults and youth who do not have work experience or employer sponsorship with an opportunity to gain the knowledge and skills needed to enter the occupation. Individuals who wish to enroll in a Foundation program must register directly with the training provider.

Recommended Education

The following education is **recommended** for apprentices entering this occupation. These are not prerequisites, but rather a desired level of skill or knowledge that will contribute to success in the industry.

- Recent Grade 12 graduate (within the past 5 years) with demonstrated mechanical aptitude, Principles of Mathematics 11, Physics 11 and English 12 or Communications 12
- or
- Successful completion of an electrical industry assessment examination which includes items relevant to technical and mechanical aptitude, Principles of Mathematics 11 equivalencies, Physics 11 equivalencies, and English 12 or Communications 12 equivalencies
- or
- Recent Electrical Foundation Program Graduate (ELTT within the past 5 years) of an ITA approved program.

Industry strongly recommends that apprentices considering attending Level 1 Construction Electrician technical training have at least one year of work-based training as an electrical apprentice before beginning their in-school technical training.

ITA Registration

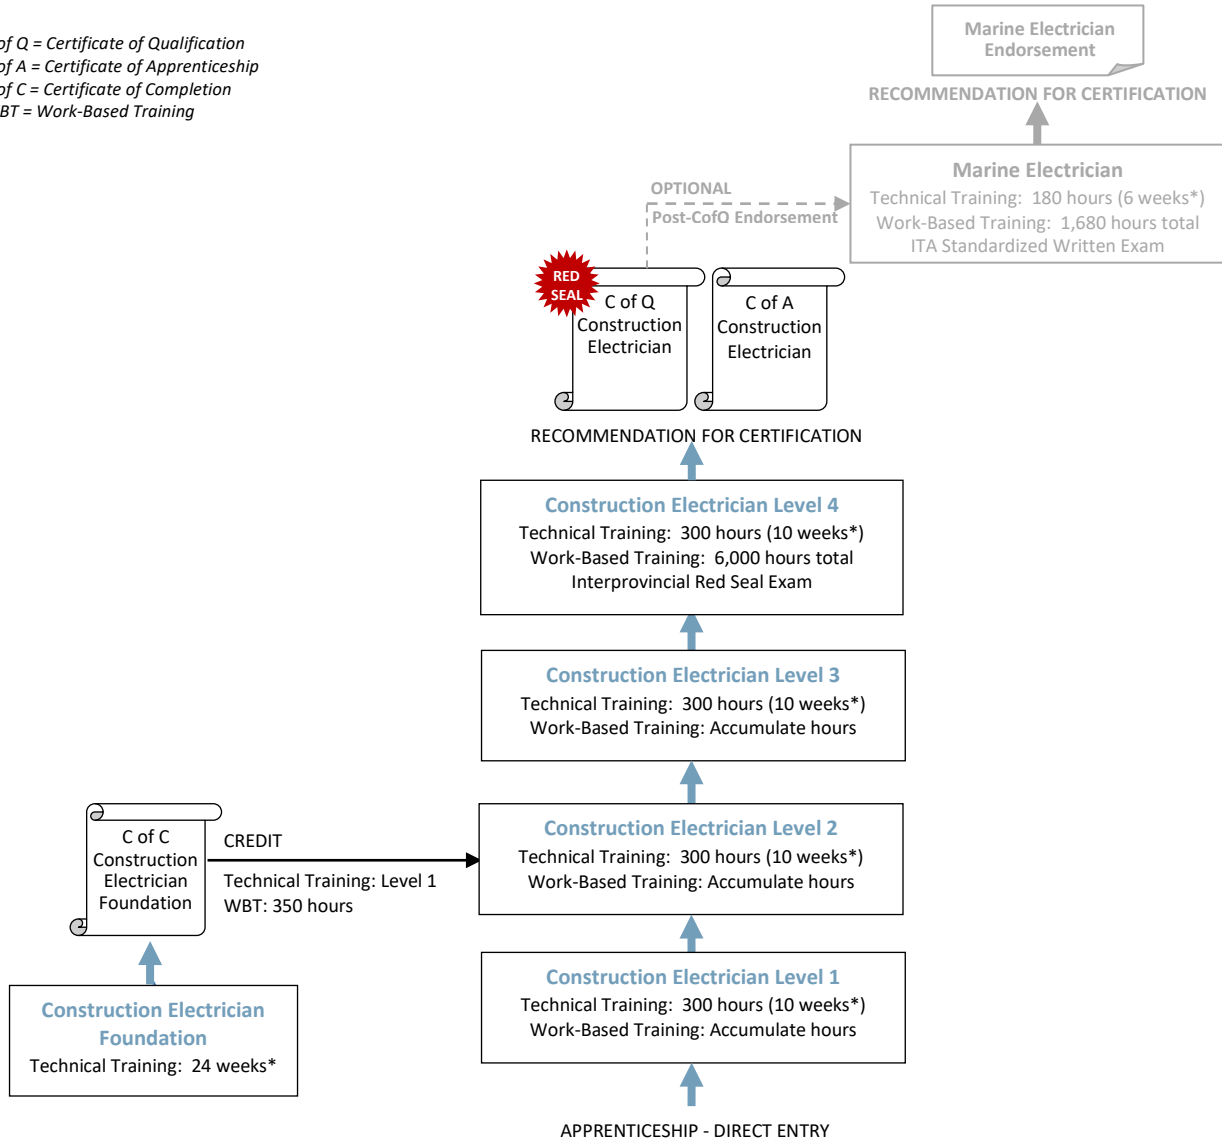

Individuals who wish to begin an apprenticeship in this program must register with ITA along with their sponsor. Application forms for all programs are available from the ITA website. Online registration is also available for most programs through the ITA website.

Those who wish to challenge the Construction Electrician certification must complete the Construction Electrician Challenge Application and submit it to ITA. Challenge applications are assessed for proof of workplace hours and scope of experience prior to acceptance of the individual into the Challenge pathway.

Apprenticeship Pathway with Optional Endorsement

This graphic provides an overview of the Construction Electrician apprenticeship pathway.

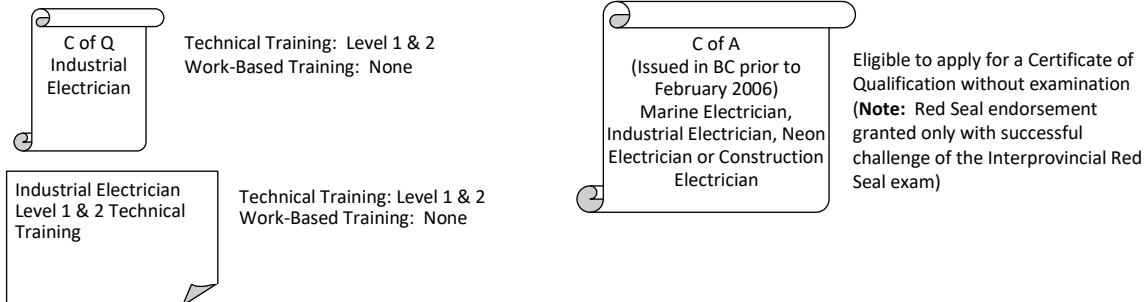

*C of Q = Certificate of Qualification
C of A = Certificate of Apprenticeship
C of C = Certificate of Completion
WBT = Work-Based Training*

**Suggested duration based on 30-hour week*

CROSS-PROGRAM CREDITS

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Apprenticeship Program Standards

Credentials Awarded	<ul style="list-style-type: none"> ▪ Construction Electrician – Certificate of Qualification with Interprovincial Red Seal endorsement ▪ Construction Electrician – Certificate of Apprenticeship
----------------------------	---

ITA Registration Prerequisites	<ul style="list-style-type: none"> ▪ Agreement signed by the employer to sponsor the apprentice
---------------------------------------	--

Completion Requirements	Certification as a Construction Electrician is awarded upon successful completion of:
--------------------------------	---

Requirement	Level of Achievement Required
Technical Training	Minimum 70% in each level of technical training: <ul style="list-style-type: none"> ▪ Level 1: 300 hours (or 10 weeks*) ▪ Level 2: 300 hours (or 10 weeks*) ▪ Level 3: 300 hours (or 10 weeks*) ▪ Level 4: 300 hours (or 10 weeks*)
Interprovincial Red Seal Exam	<ul style="list-style-type: none"> ▪ Minimum 70%
Work-Based Training	<ul style="list-style-type: none"> ▪ 6,000 hours
Recommendation for Certification	<ul style="list-style-type: none"> ▪ Recommendation for certification signed by the Sponsor and an individual holding credentials eligible for sign-off authority

*(*Assuming 30 hours in school per week)*

Program Duration	<p>Duration varies depending on how training is delivered, but the program generally takes 4 years to complete.</p> <p>The technical training requirement is typically met through block-release training (full-time, at school) delivered by an ITA-approved training provider. It can also be met through approved alternative training models (e.g., distance education, online, part-time) and/or level challenge where these options are available.</p>
-------------------------	--

Sign-off Authority	<p>Credentials eligible to sign-off on the Recommendation for Certification:</p> <ul style="list-style-type: none"> ▪ Construction Electrician – Certificate of Qualification with Interprovincial Red Seal endorsement ▪ Construction Electrician – Certificate of Qualification ▪ Industrial Electrician – Certificate of Qualification with Interprovincial Red Seal endorsement ▪ Industrial Electrician – Certificate of Qualification ▪ Electrician – Certificate of Qualification with Interprovincial Red Seal endorsement ▪ Electrician – Certificate of Qualification

Challenge Pathway

This graphic provides an overview of the Construction Electrician challenge pathway.

C of Q = Certificate of Qualification

CREDIT FOR PRIOR LEARNING

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Military certificate in Electrical
Distribution Technician MT #302 /
MT #642, QL5 or higher

Work Experience: 3,000 hours

Challenge Program Standards

Credentials Awarded Construction Electrician – Certificate of Qualification with Interprovincial Red Seal endorsement

ITA Registration Prerequisites An approved Challenge Application, which includes:

- 9,000 documented hours of directly related experience working in the occupation

Credit for Prior Learning Individuals who hold the credentials listed below are considered to have met, or partially met, the prerequisites for challenging this program:

Credential	Credit(s) Granted
Military certificate in Electrical Distribution Technician MT #302 / MT #642, QL5 or higher	▪ Work Experience: 3,000 hours

Completion Requirements Certification as a Construction Electrician is awarded upon successful completion of:

Requirement	Level of Achievement Required
Interprovincial Red Seal Exam	▪ Minimum 70%

Foundation Program

Refer to the Apprenticeship pathway credentialing model for this program to see how the Construction Electrician Foundation program leads to apprenticeship in this trade.

Foundation Program Standards

Credentials Awarded	Construction Electrician – Certificate of Completion	
Enrollment Prerequisites	Contact training provider. Prerequisites vary between training institutions	
Completion Requirements	A Certificate of Completion in this program is awarded upon successful completion of:	
	Requirement	Level of Achievement Required
	Technical Training	<ul style="list-style-type: none"> ▪ Minimum 70%
Program Duration	Duration varies depending on how training is delivered, but program generally takes 24 weeks to complete, assuming 30 hours in school per week	
Credit toward Apprenticeship	Individuals who complete the Construction Electrician Foundation program will receive the following credit toward completion of the Construction Electrician apprenticeship program: <ul style="list-style-type: none"> ▪ Technical Training: Level 1 ▪ Work-based Training: 350 hours
