

INSTRUMENTATION AND CONTROL TECHNICIAN

Occupation Description

“Instrumentation and Control Technician” means a person who installs, repairs, maintains, replaces, calibrates, programs and services all process monitoring and/or control instruments, including indicators, recording devices, control loops and computers. These instruments may be pneumatic, hydraulic, electronic, electrical, mechanical, nuclear, optical or chemical and include signal transmission, telemetering and digital devices in industrial operations.

For detailed information on the scope of knowledge and skills taught and assessed in this program refer to the Program Outline, available on the ITA website.

Pathways to Certification

In BC, an individual can become certified as an Instrumentation and Control Technician by completing the Instrumentation and Control Technician program or by challenging the certification. Apprenticeship programs are for individuals who have an employer to sponsor them and challenge programs are for individuals who have extensive experience working in the occupation and wish to challenge the certification.

Youth can begin an apprenticeship in high school through the Youth Train in Trades or Youth Work in Trades programs. The Youth Work in Trades program is available for any trade if an employer is willing to sponsor the student. Trades offered through the Youth Train in Trades vary by region; contact your local school district to find out which technical training programs are being offered through the Youth Train in Trades program in your region.

Foundation programs, where available, provide adults and youth who do not have work experience or employer sponsorship with an opportunity to gain the knowledge and skills needed to enter the occupation. Individuals who wish to enroll in a Foundation program must register directly with the training provider.

Recommended Education

The following education is recommended for apprentices entering this occupation. These are not prerequisites, but rather a desired level of skill or knowledge that will contribute to success in the industry.

- Grade 12 diploma, including English 12, Math 11 (Applications of Math 11 or Principles of Math 11), and Physics 11

ITA Registration

Individuals who wish to begin an apprenticeship in this program must register with ITA along with their sponsor. Application forms for all programs are available from the ITA website. Online registration is also available for most programs through the ITA website.

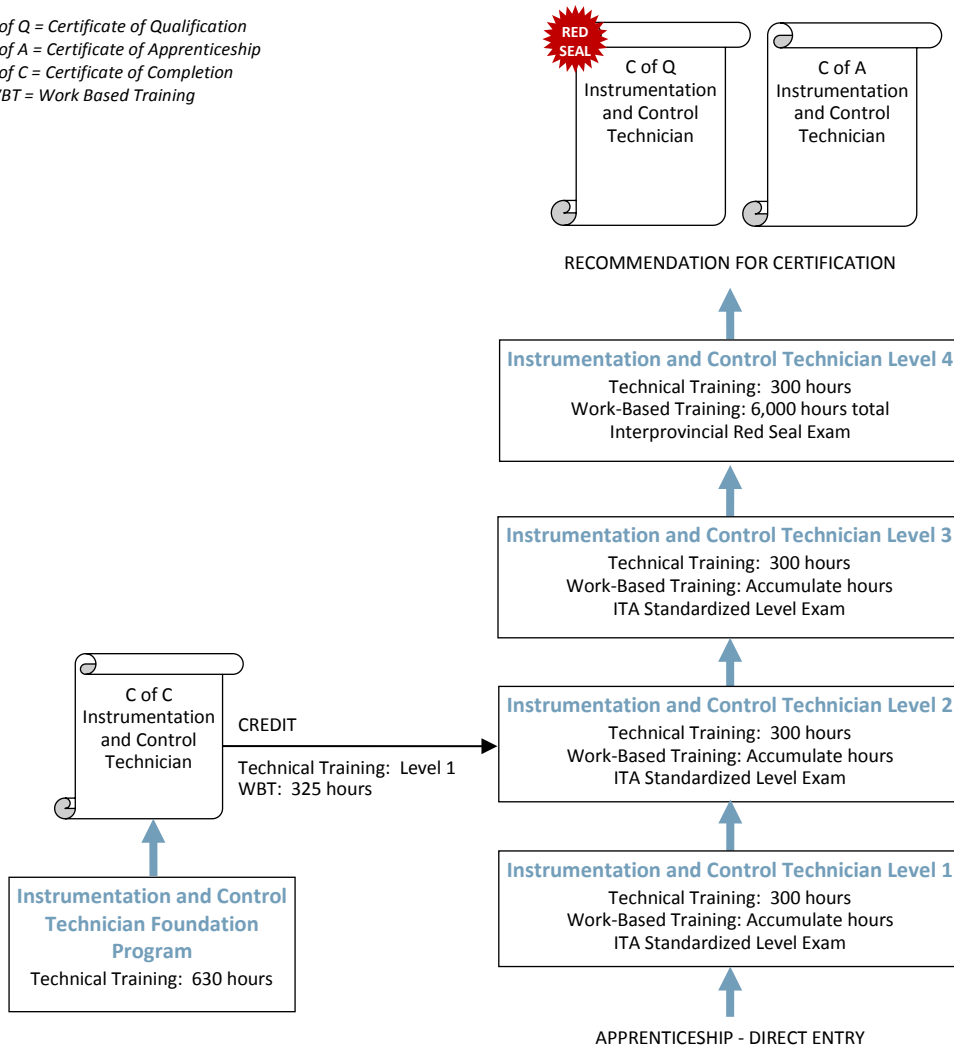

Those who wish to challenge the Instrumentation and Control Technician certification must complete the Instrumentation and Control Technician Challenge Application and submit it to ITA. Challenge applications are assessed for proof of workplace hours and scope of experience prior to acceptance of the individual into the Challenge pathway.

Apprenticeship Pathway

This graphic provides an overview of the Instrumentation and Control Technician apprenticeship pathway.

C of Q = Certificate of Qualification
C of A = Certificate of Apprenticeship
C of C = Certificate of Completion
WBT = Work Based Training

CROSS-PROGRAM CREDITS

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

None

Apprenticeship Program Standards

Credentials Awarded

- Instrumentation and Control Technician – Certificate of Qualification with Red Seal Endorsement
- Instrumentation and Control Technician – Certificate of Apprenticeship

ITA Registration Prerequisites

- Agreement signed by the employer to sponsor the apprentice

Completion Requirements

Certification as an Instrumentation and Control Technician awarded upon successful completion of:

Requirement

Level of Achievement Required

Technical Training

Minimum 70% in each level of technical training:

- Level 1: 300 hours and ITA standardized written exam
- Level 2: 300 hours and ITA standardized written exam
- Level 3: 300 hours and ITA standardized written exam
- Level 4: 300 hours

Interprovincial Red Seal Exam

- Minimum 70%

Work-Based Training

- 6,000 hours

Recommendation for Certification

- Recommendation for certification signed by the Sponsor and an individual holding credentials eligible for sign-off authority

Program Duration

Duration varies depending on how training is delivered, but the program generally takes 4 years to complete.

The technical training requirement is typically met through block-release training (full-time, at school) delivered by an ITA-approved training provider. It can also be met through approved alternative training models (e.g., distance education, online, part-time) and/or level challenge where these options are available.

Sign-off Authority

Credentials eligible to sign-off on the Recommendation for Certification:

- Instrumentation and Control Technician – Certificate of Qualification
- Instrumentation and Control Technician – Interprovincial Red Seal Endorsement
- ITA-issued letter authorizing supervision and sign-off of apprentices in this occupation

Challenging a Level

The following levels of technical training can be challenged for advanced placement in this program:

- None

Cross-Program Credits

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Credential

Credit(s) Granted

None

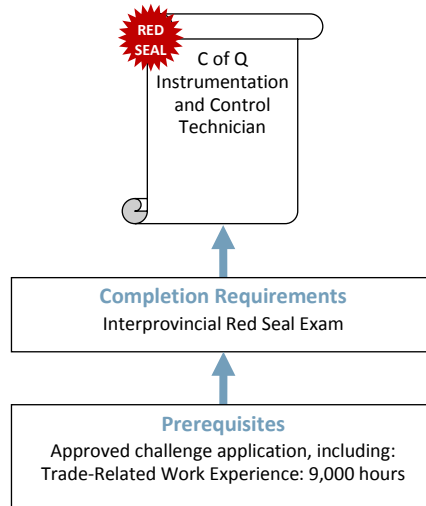

- N/A

Challenge Pathway

This graphic provides an overview of the Instrumentation and Control Technician challenge pathway.

C of Q = Certificate of Qualification

CREDIT FOR PRIOR LEARNING

Individuals who hold the credentials listed below are considered to have met or partially met the prerequisites for challenging this program

- None

Challenge Program Standards

Credentials Awarded Instrumentation and Control Technician – Certificate of Qualification with Red Seal Endorsement

ITA Registration Prerequisites An approved Challenge Application, which includes:

- 9,000 documented hours of directly related experience working in the occupation

Credit for Prior Learning Individuals who hold the credentials listed below are considered to have met or partially met the prerequisites for challenging this program

- None

Completion Requirements Certification as a Instrumentation and Control Technician is awarded upon successful completion of:

Requirement	Level of Achievement Required
Interprovincial Red Seal Exam	<ul style="list-style-type: none"> ▪ Minimum 70%

Foundation Program

Refer to the Apprenticeship pathway diagram for this program to see how the Instrumentation and Control Technician Foundation program fits into apprenticeship.
